Wellness

Healing (Post-Op Recovery) IV Kit

Overview

Healing brings together vitamins, minerals, and the amino acid taurine for regimens designed around wound healing. Ascorbic acid has been studied for its role in collagen synthesis, zinc and copper are recognized for their cellular proliferation, B vitamins play a role in tissue regeneration, and taurine has been researched for its antioxidant and anti-inflammatory properties.

Ingredients

- **Preserved Ascorbic Acid 500mg/mL**
- **OLYMPIA Mineral Blend**
- **OLYMPIA Vita-Complex**
- **Taurine 50mg/mL**

Precautions

Do not take this IV Kit if you have allergies to any ingredients in kit, corn allergy, G6PD Mutation, or decreased kidney or liver function.
